## Reduce Downtime

Hi-Tech' IT Services are built to cover all of your IT support needs from workstations to servers to other mission-critical devices. We detect and stop IT issues before they affect your bottom line and perform regular maintenance to keep systems stable and secure, which in turn drastically reduces company downtime.

## 24x7x365 Monitoring

Hi-Tech is dedicated to keeping your technology investment up and running smoothly so you can focus on your business. You can relax knowing our partnership with your organization means we take your IT personally, and strive to keep your staff productive with the tools they need to drive your business forward.

## Flat-Rate IT Support

Imagine being able to finally budget your support. Imagine how much faster issues will get resolved if your entire staff can call for support without increasing your monthly IT expenses. With Hi-Tech, save money on the long run with fewer issues, less downtime, and a no-surprises flat-rate that's designed to be affordable for small businesses.

## Network Security

The Internet offers significant benefits to small and medium-sized businesses, but with it comes many potent security issues. From Malware to Data Theft, layering protection into your current IT infrastructure is becoming more and more important every day.

Hi-Tech can help you by reviewing your company's needs and finding solutions that works best for your business, including Antivirus, Malware Protection, Firewall Solutions, and Content Filtering.

## Onsite & Remote Support

Get fast reliable technical support and assistance for technical issues. Access to high level industry trained engineers.

## Backup & Disaster Recovery

Up to 60% of small businesses that experience a major data-loss event go out of business within a year of that event. Hi-Tech can provide reliable, incremental data backup that is regularly tested and has the potential for quick restoration. Your data backups can also be stored off-site at our secure data center automatically. Ensuring that, no matter the scale of the disaster your company experiences, your data will be there when you need it.
